Heirloom Arrangements Kit Card Designs

By Vanessa Baker

Measurements

No cutting – everything is in the kit, I've only added the Low-Profile Dots and card inners but both of these are optional

Instructions

1. Unwrap the main package. Pop the pre-printed and die cut elements from the sheets and place in a clear stamp case. Open the ink spot, take out the block and tape. Make a pile of the card bases.
2. Decide which image from the instructions you want to follow and find the pieces that are used in that card.
3. Decide which layers you will stick straight on the card and which ones you will dimensional. I do this by layering the card as per the image in the instructions and deciding based on how many layers there are and the look I want.
4. Remove the pieces and start with the first one to be stuck onto the card base and build from there.
5. I added some baker's twine to one of my cards and after the video I went back and added some Low-Profile Dots for a bit of sparkle.
6. I also went back and added some small elements to an inner of Basic White Cardstock measuring 10.2cm x 13.5cm (4" x 5 1/4").
7. Match up your card with an envelope from the pack and you're finished!
