Petal Pink

Mint Macaron

Sweet Sorbet

Soft Succulent

So Saffron

Evening Evergreen

I hope you enjoy my 2022-2023 In Color™ colour combinations. They take many hours of work and research to create so I'd appreciate it if you read the following.

### Using the combos

If you use any of these combos, I'd love to see so please tag me @allthingsstampy (Facebook and Instagram) if you can.

### Sharing the combos

If you wish to share these combos with your friends, it would be great if you could share the Facebook post or Pin rather than the actual file. Like any Stampin' Up!® demonstrator, I am working hard to grow my audience on social media and this all helps.

### Printing the combos

This file is designed to be printed on three A4 sheets. If you are in the US they will be slightly too long so simply click "fit to page" when printing.

### Colour accuracy

I have used the official Stampin' Up!® hex codes. However, colours will vary according to your monitor or printer. I have found that Coastal Cabana in particular never looks accurate on screen.

### Past colour combos

These are at [www.allthingsstampy.co.uk](http://www.allthingsstampy.co.uk). There is a button on the main page when viewing the desktop version of the site.

Thanks for reading – now go and make something!
