Irresistible Blooms Diagonal Front - Card on Card Fun Fold

Hello my stamping friends.

Ready for our first Fun Fun Template for May? Okay, before you panic, yes it has a diagonal cut in the design... but it's going to be okay. I will walk you through the whole process step by step. We are in this together!

For today's project I am featuring the Irresistible Blooms Stamp Set and coordinating DSP - Hello, Irresistible! Both are online exclusive items, so we never know when they will be discontinued. If you like them, don't delay and miss out!

I choose papers that would work with Pretty Peacock. It is a returning color to our color families, tomorrow with the release of the new catalog. This was one of my favorites before, and still is. It's blue, but it's green at the same time. And I really like the way this DSP has the white images with the muted colors behind.

Ready to watch the Show & Tell video, I will take you from start to finish on this template. So let's start there. If you have your templates and practice kits, you received in the mail, you can follow along and pause the video as we work together, or watch and then make your kits. Whichever works best for you. Here we go!

See, it's not that hard of a template to follow along with. This is a perfect example of a project that a template really helps when recreating it with new papers and stamps. Having it to open and fold, and line up with the paper cutter for positioning was very helpful to me. I hope it will be for you as well.

Would you like to receive this template in the mail, along with a sample kit to practice one of your own? That's exactly what I offer in my [Class In The Mail](#) option. Be sure to contact me if you would like to join the fun. It's not too late to get this month's template projects, I always make a couple of extra just to have on hand.
